TELEGRAPHIC REPORT. PROCEEDINGS IN CONGRESS. Senate. WASHINGTON, June 25, 1846. THE ARNY.

Mr. BRIGHT introduced a bill to increase the pay of non-commissioned officers and privates of military and volunteer companies and regiments, and to allow the of-ficers of the same a grant of land in certain cases. THE EXPLORING EXPEDITION.

Mr. Prace reported a bill providing for the publication and distribution of additional copies of the acientific works of the Exploring Expadition. The resolution to adjourn on the 20th of July coming up in order, Mr. Breese moved to postpone it until Monday, on account of the absence of Mr. Huntington. Lost, The resolution being on its passage, it was briefly and strengly opposed by Messrs. Benton and Yancey, on the ground that the period was about to arrive when Congress could, and should, legislate for our people beyond the Rocky Mountains The latter moved to lay the resolution on the table.

Mr. Berese took the same ground. He was unwilling to give the power of adjournment to the House. Mr. Westcott took the same view of the case. Mr. Davis advocated the resolution. He thought there was time enough to do all the work necessary by the 20th July.

Mr. Sevier opposed the resolution. The time was too short for the business before them, and he was unwilling to adjourn and leave important matters unacted on.

Mr. Clayfor moved to extend the period named to the 3d of August. Mr. Benron would prefer the 10th of August. The European mail, of the 19th July, will arrive about the 3d of August, and it might be found inconvenient to adjourn on that day.

Mr. Fairfield advocated the 27th of July. Mr. FAIRPIELD advocated the 27th of July.

Mr. Savira opposed the adjournment. As soon as the warehouse bill was acted upon, he wished to call up the sub-treasury bill, and pass it.

The debate was further continued with great animation. The adjournment was advocated by Messra. Clayton and Dickinson, and opposed by Messra. Bagby. Speight, Colquitt, and Benton. There was quite a sparring between Messra. Dickinson and Benton, which afforded some amusement.

The resolution was then laid on the table—yeas 28, name 28. E. The bill for organizing the volunteers was then taken up. Mr. Benton explained its provisions. House of Representatives. WASHINGTON, June 25. THE TARIFF.

A metion was made, on which a cell of the House was aded. The year and nays were ordered, and the demanded. The yeas and mays were ordered, and the motion rejected—yeas 46, nays 67.

The House then resolved itself into Committee of the Whole, Mr. Cohb in the Chair, and resumed the consideration of the bill to reduce the tariff. Mr. Winther made an elequent and powerful speech in support of the present tariff system.

Mr. Brodhead next addressed the committee, and spoke his hour in favor of sustaining the present system. He was quite animated and severe upon his Southern political friends.

Mr. Hussare, cf Virginia, followed, and advocated a madifection of the present tariff. medification of the present tariff.

Mr. Ewisc, of Pennsylvania, obtained the floor next, and addressed the Committee in favor of a tariff affording protection to American industry. He contended that party had too much to do with the legislation of the The Western mail brings us two days' later intelligence from Nauvoo. The officers of the steamboat Monona arrived at St. Louis on the 17th, and reported having passed Nauvoo on the 15th, up to which time there had been acts of violence committed. Nearly four hundred men were stationed in Nauvoo, awaiting the anticipated attack, under arms. The new citizens (who are not Mormons) have united to repel the lawless invaders of their homes. BY THE MAILS. WASHINGTON, June 24, 1846. Congress—The Administration, &c.

In the Senate to-day we had an interesting and valuable speech from Mr. Webster on the finances and our relations with Mexico. He insists that our expenses are now half a million a day, and recommends a special commission with an offer to treat with Mexico. Upon this point it is supported that the initiatory steps are now making in Mexico for a treaty of peace, and that with the arrival of Santa Anna at Vera Cruz, a pronucia-

nue, indicating a speedy return of the amount, will the cheerfully lend to the Department But if we expand the summer of the control of the c solpried that the initiatory steps are now making in the story of pence, and that with the strained start and as two controls of the strained start and as two controls of the start and as the start and as two controls of the start and as the start and

trol and expenditure of the means required that he for one, would not deny the requisit Whatever opinions gentlemen might have origin of the war, the inct of its existence made

On mouon of Mr. Calhoun, the bill was laid aside till to-morrow.

And the Senate, on Mr. Hay ward's motion, went into executive session.

House of Representatives.

Washington, June 24, 1846.

BELATIONS WITH MEXICO-EUROFEAN INTERPRESSION ON THE AMERICA'S HEMISPHERE.

Mr. C. J. INCERSOLL, from the Committee on Foreign Affairs, made a report on the subject of our relations with Mexico, justifying the declaration of war against that republic; and ar quing generally, and at great length, from positions which are laid down in the commencement of the report, and are as follows:

—"With great respect, and not till long after forbarance was impracticable, the constituted authorities of the United States find force the only means of sell defence from long-continued, unprovoked, aggrarated and insufferable injuries, inflicted by a sister republic and malgaboring action, with whom our procedure was
